

## Dr. Igor V. Kostikov - Board Chairman and Investment Director

Dr. Kostikov is widely hailed as Russia's leading financial markets specialist. Arguably the greatest contributor to the development of Russia's markets, Dr. Kostikov's efforts have led to increased efficiency, transparency and forward-thinking regulation creating one of the world's best performing markets over the last five years.

Dr. Kostikov has recently returned to the private sector after holding a Cabinet position in the Russian government as Chairman of the Federal Commission on the Securities Market. A longtime colleague of Russian President Vladimir Putin who elevated Dr. Kostikov in 2000 to Russia's chief financial regulatory post, his profound impact on the development and maturation of the Russian securities markets includes protecting the rights and interests of investors and ensuring a favorable investment climate in Russia.

A classically trained economist with a dual PhD in World Economy and Finance and Credit, partially undertaken at Oxford's St. Andrews College, Dr. Kostikov has been unbending in implementing Western Best Practices in Russia and in his own investment activities. His expertise and knowledge of Western markets, investment tools and practices places the EPEG Small Company Buyout Fund as one of only a handful professional investment funds in Russia to meet the strictest of international standards.

Since leaving government service, Dr. Kostikov has retained a high profile as a deft private equity investor in Russia. The Fund is a unique opportunity for Western investors to advantage Eurasian Private Equity Group's financial expertise, well-placed relationships, intimate knowledge of Russian government and business and international network of contacts in parallel with Russia's exceptional opportunities. Possibly no other investment vehicle can provide exposure to Russia's superior returns with better risk management, sophistication and localized knowledge.

### HIGHLIGHTS OF HIS CHAIRMANSHIP
